

The UBC Department of Orthopaedics

welcomes the

2011 North American Traveling Fellows

Orthopaedic Grand Rounds – October 12, 2011

The Department of Orthopaedics, UBC, is proud to host the 2011 North American Traveling Fellows on October 11, and 12, 2011. Please join us for a special Orthopaedic Grand Rounds where the Traveling Fellows will present their clinical and research perspectives.

Jaimo Ahn, MD, PhD. University of Pennsylvania

Investing in the future of orthopaedic surgery: where have half the residents gone?

John Elfar, MD. University of Rochester

Symptom maps in patients with carpal tunnel syndrome.

Kelly Lefavre, MD. University of British Columbia

Measurement and Interpretation of Radiographic Outcomes in Pelvic Fractures: How Good Are We?

Shane Nho, MD. Rush University Medical Center

Femoro-acetabular impingement

Peter Rose, MD. Mayo Clinic

Surgical Treatment of Metastatic Spine Disease

The North American Traveling Fellowship (NATF) Tour is one of the COA and AOA's flagship tours. The NATF promotes significant clinical and scientific exchange and fellowship. The AOA-North American Traveling Fellowship was originated in 1968 and is designed to showcase emerging leaders in orthopaedic surgery who are not yet 3 years past the completion of their training.
